In-Line for EVERYONE!

## VUR 18MA and VUR 14MA Instructions

The VUR 18MA and VUR 14MA represent the next generation of ergonomic solutions from Vu RYTE. Born from the request of our clients, the world famous Vu RYTE easels now adapt and attach to virtually any monitor arm for increased document support, flexibility and ergonomic positioning.

The VUR 18MA (18 inches wide) and VUR 14MA (14 inches wide) will attach to any monitor arm that has the VESA 100mm x 100mm mount bracket. In addition, due to the light weight of the Vu RYTE easels, the monitor arm should **not** have minimum weight requirements.

### Installation

Installation is very simple. Insert the included screws through the front of the easel and tighten from the backside of the monitor arm bracket with the enclosed nuts\*.

You have a removable Clip\*\*. If you desire to remove it, simply "roll" the clip forward until it pops off. Please know that once removed, the clip may not be reapplied.

You also have a Line Guide. The Line Guide Slide piece is already inserted on the left side of the easel. It should slide up and down easily. Simply place the Tracer slot over the Slide and press down and adjust to your comfort. Should you desire to remove the Line Guide, lift Tracer off the Slide and "pop" off the Slide by pressing outward or to the left.

\* Do not overtighten as overtightening could crack easel.

\*\* The clip will move side to side.

Vu RYTE, Inc. expressly disclaims the warranty of merchantability, as described in Business and Commerce Code 2.314, and the warranty of fitness for a particular purpose, as described in Business and Commerce Code 2.315, and the buyer/user of the product expressly disclaims that it has contracted for or received any warranty of fitness for a particular purpose with respect to the product. THE PRODUCT SOLD UNDER THIS AGREEMENT IS SOLD ON "AS IS" AND "WITH ALL FAULTS" BASIS.
