

# Vu RYTE

**In-Line for EVERYONE!**

1530 SSW Loop 323 Suite 111 Tyler, TX 75701 800-678-2629

*Installation is very simple. However, we do encourage you to closely follow these instructions.*

## VUR 8877FL INSTALLATION INSTRUCTIONS

1. Let's begin by removing the plastic bag containing the Liberator and the two flat panel monitor stands.
2. On the bottom of each stand is a plastic bag with 5 rubber feet ( you only need 4!). Carefully remove the feet and install according to the enclosed instructions.
3. You can use one or both of the stands. Stack them and place them under your flat panel monitor (see Figure 1)
4. You can also have an ingenious document support system... The Liberator. It may be attached to any of the four (4) positions: 2 holes in the front, 2 in the back...
  - a) Gently slide the arm through the hole in the Liberator. Note: Rib on top of arm **MUST** Align with notch in hole of Liberator. **DO NOT** force (see Figure 2).
  - b) Insert arm pin into any of 4 holes in the stand. Depending on which side you prefer, you might need to repeat step 1 above..
  - c) Your Liberator has two slots for papers, documents, lists, messages, etc. You may easily adjust the Liberator angle or pivot it when not in use.
