

MemoScape® & MemoScape plus

Installation Instructions for ALL Versions

MemoScape and MemoScape Plus are incredibly practical and amazingly adaptable desktop solutions that allow you to take notes, support documents, be ergonomic and look good while doing it! Its sleek, sophisticated design is the perfect addition to any desktop décor and it effectively utilizes the dead space between your keyboard and monitor. Once you try it, you'll be hooked. So go ahead... let's get started!

COMPONENTS

COMPONENTS

1 TO GET STARTED

Let's begin by removing your MemoScape or MemoScape Plus Base from the padded sleeve. Turn it over. Two slide pads (small clear ovals) have already been attached to the underneath front of the Base. ① Your MemoScape or MemoScape Plus includes 2 each Micro-Stabilizers which have already been attached to the underneath rear end of the Base. They are also round in shape and are about the size of a dime. ② To activate this very cool feature, gently remove the clear covering over each one. This allows your MemoScape to bond to flat surfaces. It is NOT an adhesive and leaves no residue. To reposition your MemoScape, lift it, reposition and press down on the base.

2 ANGLE ADJUSTMENT

Lift the Easel and gently swing out the **Angle Adjustment Wire**. There are 6 openings in the **Base** that offer differing angles for the **Easel**. Gently snap the **Angle Adjustment Wire** in the preferred slot. You may need to reach around the **Easel** and gently press with your fingers to snap the wire into the **Base's** opening. Experiment with differing angles... Have Fun... Enjoy being Ergonomic!!

- 1) Gently slide the arm through the hole in the **Holder**. Note: **Must** align with notch in hole of **Liberator**. Do NOT force.
- 2) Insert **Arm** pin into any 4 holes on either side of **Memoscape Plus**. Push pin **FIRMLY** into selected hole of **Memoscape Plus**. Depending on which side you prefer, **We encourage you to bring your Memoscape Plus to the edge of your desk in order to achieve this fantastic ergonomic feature.**
- 3) Your **Holder** has two(2) slots for papers, documents, lists, messages, etc. You may easily adjust the **Holder** angle or pivot out the way when not in use.
- 4) If you would like a **Side Mount Arm and Holder**, go to www.vu-ryte.com and click on **Solutions** and then click on **Accessories**. We will take care of you!!!

To adjust height of "Lip Rack", gently slide up the attachment of the "Lip Rack" to re-attach to a different position, gently slide downward in another hole. We realize the attachment of the "Lip Rack" may be snug. It is by design to provide maximum stability. You will soon get the hang of this.

For full height document support, simply lift up the **Height Support Wire**. The **Lip Rack** attaches to the holes on either side of the easel. For small document support, the top two holes are ideal. For below desk or keyboard mechanisms attach the **LipRack** to either of the lower two sets of openings in the **Easel**. We encourage you to bring your Memoscape Plus to the edge of your desk in order to achieve this fantastic ergonomic feature.

3 HEIGHT ADJUSTMENT

4 ATTACH ARM AND HOLDER

INSERTS

Included in your MemoScape or MemoScape Plus are multiple colored easel inserts. They will slide in the slots on the backside of the Easel. Have fun with the look and feel and personality of your workstation. Gone are the days when a workstation had to be boring and drab!! Also, personal photos will fit in these slots!!

MARKER

You have a unique marker... use it to make personal notes on the Easel. There is an eraser on the cap of the marker. For a more thorough cleaning, use a damp non-abrasive cleaner. You can store the marker in one of the two larger openings in the rear of the Base. We encourage you to store the marker with the tip down.

Two Super Cool Features to Memoscape Plus
